We sing a fading symphony
And I am fading company
But I'd do anything for you
You're the furthest of satellites
In an undiscovered night
You shine are you are leaving
Wait, I'll be better, I'll try harder, you know I can
And I didn't give up on you, I know you didn't let go of
me
So what are we gonna do?
Like a rocket ship hidden, you're always leaving me
spinning
To the bottom of the sea
Wait, I'll be better, I'll try harder, you know I can
Wait, one second longer, and I'll be stronger,
Than you know I am
Slow down, slow down, slow down
Wait, I'll be better, I'll try harder, you know I can
Wait, one second longer, and I'll be stronger,
Than you think I am
Wait, wait
