(yeah) (yeah)

everytime i see you
do you know what it is like
to face someone i hate?
sometime's i see through you
lies , truth , the old you i use to know

oneday i just hope you understand
why we can't both be together
i thought i knew you , i thought
you loved me but maybe you didn't
all along you just said it to make me smile

nobody like's to lies ,
everyone should tell the truth
sometime's i see through you
lie's , truth , the old you i use to know
i just hope sometime you regret your mistakes,
everything you put me through

oneday i just hope you listen for a change
oneday i hope you just have some faith
but your a person with lots of hate..in them

(yeah) (yeah)

i use to be nective , now i become postive
but now i'm broken all cause of you
all cause of you ,all cause of you

i don't know where the person i knew went
you were my true love until now all cause of you
i'm broken ,broken , broken,all cause of you.
