Bring me happiness

After all those words you used about me
I'm not so sure to touch you
I've looked so forward to be with you
Until now I found out you were
Not really mineâ€¦all I want is you
To bring me happiness

Can never live if I don't learn to fly
Can't keep fighting alone
Can't keep taking a step ahead
Before all my friends do

They say I'm very mature for my age
They say to my face I can't take you
If you never try... your hardest

All I want is you to bring me happiness
It's not a thing wear I say I love you
Then I walk away the next I am serious here

Don't acts like a child?
Act like a grown person would do

Never will be as smart as a computer
I will never walk out of your life so
You can be cool I love you that's that
Just hold the truth in every ones face

Can't keep fighting alone
Can't keep taking a step ahead
Before my friends do

Never will be lost in a bad way
Never want to walk away.

All I want is you to bring me happinessâ€¦
