goodbyes to me are not sad
losing the one u love yes always 2 me
four short words in one sentence said
in one day goodbye to me are not sad
losing the one u love yes always 2 me
never lose your mind always keep in mind
that you strong independent individual

four short words i said in one sentence
four short words said in the morning
goodbyes to me are nothing
praying is always something
wanna keep the faith the trust
wanna keep the strength
wanna know four short wordsss
wanna lose the beautiful madness

drawing in mind a picture of us
together can't do it with my two hands
only want you always in my heart
forever four short words said in one go
four short words that will last
four short words
never knowen
only me n u

four short worwds i said in one sentence
drawing us together in mind...
tell me four short wordsss
