use your kindness without you

i'd have no world i wouldn't be apart of anything

except myself and family '

the fun never ends at this time of year

the hate always ends up in nastyness with everybody

stop telling lies we know who you are

we know deep inside you have a strong soul

stop barking hold and be strong

use your kindness without you

i'd have no world i wouldn't be apart of anything

except myself and family'

the fun never ends at this time of year

the hate always ends up in nastyness with everybody

i look around i don't visualise a face

that you are describing i wish i could stand

with you forever like this

the fun never ends at this time of year

the hate always ends up in nastyness with everybody

oh oh!

the fun never ends.

the fun never ends at this time of year

the hate always ends up in nastyness with everybody
stop telling lies we know who you are
we know deep inside you have a strong soul
stop barking hold and be strong
use your kindness without you
i'd have no world i wouldn't be apart of anything
except myself and family'
the fun never ends at this time of year
the hate always ends up in nastyness with everybody
i look around i don't visualise a face
that you are describing i wish i could stand
with you forever like this
the fun never ends at this time of year
the hate always ends up in nastyness with everybody
oh oh!
the fun never ends.
