how my life looks now

my life now is out of blance
it was perfect until we started
To redo our house....
How my life looks now
It's completly changed..

i'll miss the old time's
when we could go do what we wanted..
my life now is completly different
I thought still get what i see
how my life looks now
It's out of blance...

wanted to met my favourite singer
But now i don't think i can
wanted to give her one of my songs
I wright in my life in a song i have
tells her how much i have my favourite singer

how my life looks now
my life now is completly different
was smiling until that phone call..
How my life looks now
It's out of blance and i'm now happy again
all cause of you.. how my life looks now
it looks as if i lost the plot and lost the consertraction...
