i think it's love
maybe it's like
i'm interviewing my
inside trying to know
the answer to my question
i'm feeling kind of strong
when i look at your face
i see love

i think it's love
i'm falling for you again
it's a hard thing to explain
i hope you understand
that i think it's love..
i think it's love...

yes or no
do you like m?
yes i think i love you
i'm so down with love
.....

my life may not be perfect now
but i know i can make it change
ohhhh
i think it's love
