Imagine
fallout of that moment
must of ripped you apart
you must of waited for that to happen
imagine spending you whole life
single imagine spending your whole life
imbrassing ...

I never want to go back to where i
was put before we first came here
lets make this our home we belong
here i don't want our lives tourn apart
from something tragic hapeen

imagine falling from a star
up in the sky imagine making
one thing come true..
do you believe in magic.?
do you believe in fairy tales
yes yes yes...ohhh

imagine falling from a star
up in the sky imagine
making one thing come true
OhhhhhHh

Have you ever listened to me before
have you ever heard me scream
when i'm in pain.....

I want to be seen
i want to be famous
my world is this song
I'd do anythign to make my dreams come true..

OOOOoooooOOo
Imagine falling from a star
I'magine making one thing come true
oh this can't be true..ohh
