a feeling inside i can't stop
the pain the stress the anger
is all in my life i've lost the plot
someday sometime i'll get enough strength
sometime i wanna chance to earn your trust
(wanna chance to earn your trust)

the pain the stress the anger
is all in my life i've lost the plot
all i can feel inside is emteyness
why is so much different??????
the pain the stress over the past
year has been hurting us all

a feeling inside i can't stop
the pain the stress the hurt
the tears the crying the love
the trust the soul the faith ,

all i can feel inside is emteyness
all i want is it to go away..
so i can be happy and not have to feel it again..
