Makes me go mmm,
mmmmmmm

It makes me Go mmm
moving my body to you
It makes me go mmm
making my dreams coming true
makes me go mmm

now i know our love can really be
in life that only you and me
everytime i see you i get weak
everytime you touch me i feel the heat
wanna be with you
yes its true

it makes me go mmm
moving my body to you
it makes me go mmm
making my dreams coming true
makes me go mmm (touch me)

feeling up about what
we can be as one
no more lonely nights
until you came around
oh i hope you will always stay
that you will never ever will run away
wanna be with you
yes its true

it makes me go mmm
moving my body to you
makes me go mmm
making my dreams coming true
makes me go mmm

wanna be with you
yes its true
it makes me go mmm
moving my body to you

makes me go mmm
making my days coming true
it makes me go mmm
moving my body to you
it makes me go mmm
making my dreams coming true
makes me go mmm

Makes me go mmm
moving my body to you
makes me go mmm
makes my dreams coming true
makes me go mmm

now i know our love can really be
in the life taht's only you and me
everytime i see you i get weak
everytime you touch i'll feel the heat
i wanan be with you yes its true

makes me go hmm
makes me hmm
making my days coming true
makes me go hmm [whispers *just me*]
