Not a moment on earth here
Was precious was I loved
Before I died in the last life
Was I a girl so talented?
Was I famous was I the precious one

Pretty amazing if I was
What I want to be in this life
What I was last life
Must have been true
Maybe maybe not
My life now is just normal

Once there was a dream
I had that meant something in my life
It told me to face up to things
And I wondered what?????????
I never can keep secrets there?s got to be
Some one their I know that knows the secret

Pretty amazing if in the last life
I was famous I was loved I was precious
No body knows what might have happened
