one minute ago i was in a bad mood  
but then i thought happy and then it changed  
what is going on in my mind today i seem to be  
going crazy i just want to get out of this dark place  
and move to where the sun is

i hope you know what i am saying  
i just hope you understand every bit  
i've tried all my life to fit in  
and now i finally think  
different i think i only need  
a small group of friends  
cause i have family and that's all i need  
by my side OHHH

one moment ago i was in a bad mood  
but then it changed cause i thought happy  
and i'm now feeling wonderful inside

i've tried all my life to finally fit in  
and now all the sundern i realise  
i don't need to fit in my family are my friends  
take it or leave it don't understand why people try so  
hard to be perfect

i am this way only cause i have such a  
wonderful family and friends and life  
it's all a wonderful thing in life to have

I am a dreamer  
I am am always in dark emotions  
but now i realise  
why be when you got so much to give  
and so much to visualise  
I am a dreamer  
I am a paryer  
I am creative  
I am all the words  
You can think off..

one moment ago

i was in a bad mood  
but then it changed  
as soon as i realised..
