the most beautiful thing i've ever seen  
was a person so precious her name was mandy  
she was one of a rock she taught me how to love  
she's like the me she's always had what i am going  
through now

i want in this song to tell her how much i find her  
extrodinary she's only a realitive  
no close friend a realitive  
she means so much to me  
she's like a beautiful doll  
no afence it's true she got hair like a princess

i believe she's one of a rock one of a rock  
she's my world she taught me how to love  
she knew where i was coming from  
i just want her to be my sister...  
int his song it should mean something
