there's a speical case called be happy and don't be
angry
it's all emotions turning us and rewinding us
backwards
and forwards i wanna keep my smile the way it is
i pray for me to keep it the same way

my smile is one thing i always
share with others nothing is
going to stop it from happening

there's a speical case called be happy and don't be
angry
it's all emotions turning us and rewinding us
backwards and forwards i wanna keep my smile the
way it is
i pray for me to keep it the same way

no sad looks yes happy looks only
so the smile dose always laugh good
for the soul the sun is always in my way
and the moon just doesn't go my way
my smile should stay the way it is forever

my smile is one thing i always
share with others nothing is
going to stop it from happening

no sad looks yes happy looks only
so the smile dose always laugh good
for the soul the sun is always in my way
can't hide away ...doo doo my smile
is so beautiful wanna keep it forever..
