stronger then before

just realised i am stronger then before
new something there was strange
as i was here today i learned something new

stronger then before
i'm sick of going through darkness
i'm sick of it raining as i am learning
sometimes i feel wekk when i am strong

if i could hold you and i had the chance
i would be trilled cause that's all i want
nothing can change what i am feeling

stronger then before
i'm sick of going through darkness
i'm sick of it raining as i am learning
sometimes i feel week when i am strong

if i could hold you and i had the chance
i would be trilled cause that's all i want
nothing can change what i am feeling

hello i am a girl who loves music
i am this and that all the way

if i could hold you and i had the chance
i would be thrilled cause that's all i want
nothing can change what i am feeling

hello i am a girl who loves music
i am this and that all the way

stronger then before
yeah yeah
stronger then before
