Tell somebody who cares
I say tell somebody who cares
Not I I won't let you get away this time
I can't forget about the time you for the first time
Listened I'm sick of you're complaining
Why don't you just grow up and do a little change for
once

Tell somebody who cares
Not I I won't let you get away
I won't fall down with my heart
Being the way it is I feel like
My heart is on fire I feel like my words
A burning away without notice

I say tell somebody who cares
Not I I never take much notice
In what people say all I focus?
On is me

Tell somebody who cares
Not I not I tell somebody who cares
No I don't care at all

Tell somebody who cares
Won't sit and listen
I will say this once and for all.

Tell somebody who cares

Don't you have friends to complain to?
Don't you ever understand what I am saying?
Tell somebody who cares
I won't fall down with my heart being the way it is
I feel my heart is on fire I feel my words are burning
away
without notice
No Not I I won't sit and listen
To what you got to say
