this is not the way it goes- lyrics

this is not the way it goes I said
this is not the way I planned
how could you disobay
without your trust where do I stand?
what does it take to make you believe?

how many minutes you wasted?
when will your life just get back to change
now there was truly something amazing between uus
but how do we find it all again?

this is not the way it goes I said
this is not the way I planned?
how could you disobay
without your trust where would I stand?
what does it take to make you believe??

your words cant sound the same as I
please be different
how many times have you broken my heart?
when will you wake up and realise what you did?

this is not the way it goes?
I won;t let you distroy my life time
I honestly Don't know how to live
without You but this is how it's gonna have to be!

This is not the way it goes I said
this is not the I planned?
how could you disaobay ?
without your turst where would I stand??
what does it take to make you believe?

just say that word and maybe things could change.
