I use to know

I use to know deep down inside who i was
it seems as i got older i lost the plot
i've looked as if i've forgot

you know that you're the only one i can stand to be with
you know that you're the only one i can be with?

i wish you were doing less frustrations
and you were more into comforting
without your love i'd be lost in the middle of no where
I use to know deep down inside who i was
it seems as i got older i lost the plot
i've looked as if i've forgot

Don't you wish you could turn a page
to one of your Dreams Don't you wish
that emteyness inside your pain would fade

i use to know deep down inside who i was
it seems as i got older i lost the plot
i've looked as if i forgot

suddenly as i got up
my world had turned black
only cause of all the stress i've caused
with me and you I wish we were through
sometimes i can't think all i do is cry

Suddenly as i got up
my world had turned black
onl cause of all the stress i've caused
with me and you I wish we were through
sometimes i can't think all i do is cry

i wish i was strong I wish you knew
what i was feeling inside
i wish you'd stop what You do
Sometimes it gets a bit to much.

i use to know deep down inside who i was
it seems as i got older i lost the plot
i've looked as if i forgot'
