Wasted

I just hate it when I feel like everything I got has been
wasted'

I've got my dreams I've got everything I need'

I've been taking to a world full of love

oh bless me I've just wasted'my last words

I said oh yeah

everywhere I go I hear cheering'

it just makes me think twice'of what I might of missed'

I stand there and I try to smile and do what the crowd
does'

I just hate it when I feel like everything I got has been
wasted'

I've got my dreams I've got everything I need'

I've been taking to a world full of love

standing'around just looking curious

trying to find out who I really am

in the middle of everywhere I look

It seems Like i'm living a dream..

oh bless me I've just wasted my last words

I said oh yeah

everywhere I go I hear cheering'

it' just makes me think twice of what I might of missed'

I just hate it when I feel like everything I got has been
wasted'

I've got my dreams I've got everything I need'

I've been taking to a world full of love

standing'around just looking curious

trying to find out who I really am

in the middle of everywhere I look

it seems like i'm living a dream
