i picture a film in mind
a film we can become actors in
i trying to creat a story
and trying to find a charcter
that we all can relate too

trying to see the big picture
the film of a lifetime
oh the story with us never ends hey
we still never change
we are together
we are alawyas gonna be in eachother lives
oh!

i picture a seen
with so many accidents in
i happen to be the oonly one
in on this one

ohhhwe seem to be in eachotheres way
oh nobody is on this one with me
with me
no on3
in this moment
theres not a thing you can change
this film is about romance
in mind we stick together
