*~ What I'm Waiting For *~

somewhere inside tells me where i've gone wrong'
it tells me all the things that are needed in later on in
life

I believe' someday I might get what i'm waiting for

I let it be feelings for a while-
and then I wait and see what happens
cause you just never know until it comes
until that moment' you've always wanted'
to happen comes oh yeah yeah

i've been through good and bad times
i've had a day where I felt alone
when I was around my whole family

chorus

somewhere inside tells me where i've gone wrong'
it tells me all the things that are needed in later in life
I believe' someday I might get what i'm waiting for

what i'm waiting for'

it's all about staying positive'
I believe I can get what I see
all it needs is time' to come
and be okay-to be here

what i'm waiting for

all I know now is to wait'
and go after my dreams before true love
what i'm waiting for' is that moment to be like
one of my dreams..I everynight when I close my eyes

what I'm waiting for'
