who's that girl
who is she?
i believe she's new
i just was curious
i'm so sure
she's gonna make something
out Of whatever

oo who's that girl
we don't know her
unless we go over there
and met her

i need something special for a change
i need to be perpered
a little while
i need to get ready for a new start
want more detail
about that new girl
who that girl
i don't yet know her
oooo
clear all the i don;'t know bits
and just go over there
and pretend like you know her
ohh that's so me
i do that yeah
lol
