You were just a dream before  
But now it's true  
You are like a prince  
And I'm the princess  
Now I know that you were the boy  
That I once knew

(Chorus)

You came and you changed my life  
You came and you changed everything  
My whole life changed  
Because of you  
You came and I changed  
You came and everything changed  
My whole life changed because you came

Now I realized  
I wanna be with you forever, Ohhh  
You are everything I need  
Just you, Oh  
Just you alone

(Repeat Chorus)

There is no more I need  
Because you are here  
Because you came I will never hate you  
No no more  
This I promise

(Repeat Chorus)

Since you came  
I changed
