#### Verse 1:

The pain has been stretched out lately  
I feel a change in the way you say you love me  
And so now,  
I'm tryna find a way to save the sound  
I don't want to turn it down  
I know we can make it now

#### Chorus:

I know you feel it when I touch you  
Feel you, have you  
Ever thought about the times  
When I hold you call you, love you  
Cause I love it when we're  
Hugging, touching, loving, kissing, rubbing  
Holding unto you  
Crying, laughing, making love  
As if the world was just us two  
I know right now  
You don't understand  
How much I do need you  
Moving on, I just ain't ready  
Boy, I breathe your love  
I breathe your love

#### Verse 2:

Searching through my memories' pages  
Trying to find just one left blank  
So we can paint a perfect fairytale  
And it won't fade  
Only time could tell

#### Chorus:

I know you feel it when I touch you  
Feel you, have you  
Ever thought about the times  
When I hold you call you, love you  
Cause I love it when we're  
Hugging, touching, loving, kissing, rubbing  
Holding unto you  
Crying, laughing, making love

As if the world was just us two  
I know right now  
You don't understand  
How much I do need you  
Moving on, I just ain't ready  
Boy, I breathe your love

Bridge:  
You see the thing about it  
Is when it gets hard,  
You try harder  
I don't wanna live without ya  
So if the fire dies, just reignite it  
You and I  
Can't let this break us down  
Keep it alive  
I don't wanna say good-bye

Hugging, touching, loving, kissing, rubbing  
Holding unto you  
Crying, laughing, making love  
As if the world was just us two  
I know right now  
You don't understand  
How much I do need you  
Moving on, I just ain't ready  
Boy, I breathe your love

Hugging, touching, loving, kissing, rubbing  
Holding unto you  
Crying, laughing, making love  
As if the world was just us two  
I know right now  
You don't understand  
How much I do need you  
Moving on, I just ain't ready  
Boy, I breathe your love
