I sing of little dreams
riding melodies
ever since i could speak
seeing smiles light up as my notes
free spirits,caress emotions

And now a chance to be
among my idols
who share my passion
to win a crowd of thousands
to laugh with,to belong
to touch more hearts,to share my song

CHORUS:
here i am,before you all
hear me now,finally im home
this stage and I were inseparable
I'm singing my song
paparapapa, Love ko 'to

and no matter where my rhythm takes me
by my side is where they'll always be
and now a chance to be
among my idols
who share my passion
to win a crowd of thousands
to laugh with,to belong
to touch more hearts,to share my song

(REPEAT CHORUS)
it'll never fade away,it'll never fade away ..

Here i am,before you all
here me now,finally im home
this stage and i were inseparable
i'm singing my song
paparapapa ,i'm singing my song
paparapapa ,im singing my, im singing my song..
paparapapa, Love Ko 'To ...
