### "Breathe Your Love"

Visit "[Breathe Your Love](#)" on [MotoLyrics.com](http://MotoLyrics.com)

The pain has been stretched out lately,  
I feel a change in the way you say you love me  
And so now, Iâ€™m tryinâ€™ to find a way to save the  
sound  
I donâ€™t wanna turn it down  
I know we can make it now

Pre-chorus:

I know you feel it when I touch you  
Feel you, have you  
Every thought about the times when I hold you  
Call you, love you

Chorus:

Cause I love it when we hugging, touching,  
Loving, kissing, rubbing, holding on to you  
Crying, laughing  
Making love as if the world was just us two  
I know right now you donâ€™t understand how much I do  
need you  
Moving on, I just ainâ€™t ready  
Boy I breathe your love

Searching through my memories pages  
Trying to find just one left blank  
So we can paint a perfect fairytale  
And it wonâ€™t fade, only time could tell

Pre-chorus:

I know you feel it when I touch you  
Feel you, have you  
Every thought about the times when I hold you  
Call you, love you

Chorus:

Cause I love it when we hugging, touching,  
Loving, kissing, rubbing, holding on to you  
Crying, laughing  
Making love as if the world was just us two  
I know right now you donâ€™t understand how much I do  
need you

Moving on, I just ain't ready  
Boy I breathe your love

You see the thing about it  
Is when it gets hard, you try harder  
I don't wanna live without you,  
So if the fire dies,  
Just reignite it  
You and I, can't let this break us down  
Keep it alive,  
I don't wanna say goodbye

Chorus:  
Hugging, touching,  
Loving, kissing, rubbing, holding on to you  
Crying, laughing  
Making love as if the world was just us two  
I know right now you don't understand how much I do  
need you  
Moving on, I just ain't ready  
Boy I breathe your love

Hugging, touching,  
Loving, kissing, rubbing, holding on to you  
Crying, laughing  
Making love as if the world was just us two  
I know right now you don't understand how much I do  
need you  
Moving on, I just ain't ready  
Boy I breathe your love
