"Love Came Down"

Visit "[Love Came Down](#)" on MotoLyrics.com

Everybody's got a story everybody's got a song
Everyone's a little different but we all went wrong
Then a Savior came and He took the blame
Changed everything
Then a Savior came and He took the blame
Changed everything

I could sing about His forgiveness
I could praise Him till the sun goes down
I could say that I am a witness
I was there when His love came down
Love came down on me
Love came down on me

Love broke through my darkness now I can finally see
He paid the price for my freedom no more chains on
me
Since the Savior came and He took the blame
Changed everything
Since the Savior came and He took the blame
Changed everything

I could sing about His forgiveness
I could praise Him till the sun goes down
I could say that I am a witness
I was there when His love came down
I could sing about His forgiveness
I could praise Him till the sun goes down
I could say that I am a witness
I was there when His love came down
Love came down on me
Love came down on me
