Well I've no excuse  
What can I say  
I just stumble  
When you walk my way

I can't help myself  
I can't help myself  
I can't help myself  
When I help myself to you

Well sometimes I'm weak  
Sometimes I'm strong  
But when I'm with you  
I don't know right from wrong

I can't help myself  
I can't help myself  
I can't help myself  
When I help myself to you

My legs start to tremble  
My knees start to shake  
My mind wants to crumble  
My heart wants to break

I nearly lost control  
'Till I met you  
I want to get along  
But what can I do?
