I have found my freedom  
You will find me flyin' down a highway of gold  
My shirt sleeves are rolled  
Laying waste for a pot of gold  
I go fast 'till I'm going faster  
Look how far we've come look how far  
My car my car  
My kingdom for a car  
How I love the highway  
Picks me up and takes me wherever I please  
Bring space to its knees  
I am master of all that's flying by me  
Take me to tomorrow

Let me go I'm racin' with the wind in my hair  
There's smoke in the air  
But I do not care  
If you want me you will have to pass me  
Come to me baby  
We will leave this path it was not made for man  
We'll find a new land  
But the traffic is jammed  
I would park but it's too far for walking
