Well I love the women and I love them all the same  
I love the women and I love them all the same  
Well I love the women  
But not enough to give them my name  
These womens makes a fool out of me  
Lord out of me  
When I take a girl to dinner she hangs around my neck  
When I take a girl to dinner she hangs around my neck  
She also pays my taxi  
She also pays my check  
These womens makes a fool out of me  
Lord out of me  
Well I rubs my back with alcohol just to cure my cough  
Well she rubs my back with alcohol just to cure my  
cough  
Well I almost broke my back  
Trying to lick the alcohol off  
These womens makes a fool out of me  
Lord out of me
