

Jason Aldean "Play Some Football"

Visit "[Play Some Football](#)" on MotoLyrics.com

Tennessee Vols hitting it hard,
In this game, it's like a house of cards,
We like them hawgs, Get 'em dawgs
We know how to play it in the US of A
Way down South, better watch yo mouth
Or start talking trash
About the team that I'm cheering for,
We'll knock you down,
So make a Bee-Line for that door

Cause it's blood, sweat, and tears,
It's facing your fears,
It's the fans and the action,
You better get some traction,
Wait, is that your quarterback?
I think we just sacked him

Cause when it's fall,
Down here, baby, we play some football

Cheerleader's cheering, in their tiny little suits,
Pretty blonde girls, working that attitude,
Down there in Bama, they work it right,
Have the other team crying at the end of the night
Cause Southern boys know they got the talent,
Wait is that your quarterback?
I think we just sacked him

Cause it's blood, sweat, and tears,
It's facing your fears,
It's the fans and the action,
You better get some traction,
Hear the crowd singing
Yeah we all love the reaction

Cause when it's fall,
Down here, baby, we play some football

From Texas to South Carolina,
You ain't gonna find no finer,
It's the SEC, the one's to beat
We're always gonna be on top

We don't care whose number one
As long as it's one of us
And we beat the hell out of the rival team

[Talking]
Yeah that's all that matters to me

[Guitar]

Cause it's blood, sweat, and tears,
It's facing your fears,
It's the fans and the action,
You better get some traction,
Wait, is that your quarterback?
I think we just sacked him

[Aldean laughs]

Cause it's blood, sweat, and tears,
It's facing your fears,
It's the fans and the action,
You better get some traction,
It's being a real man's man
It's seeing all the crazy fans
Watching that score blow up
Man, I can't get enough
Cause when the fall,
We're ready for some football
Yeah, better play some football

Yeah
