We must have said goodbye  
At least a dozen times  
With every tear we've cried  
We must be crazy  
Swear we've slammed a hundred doors  
Said things we're sorry for  
Still we come back for more  
Every time baby

And oh, even when it hurts like this  
Oh, baby we just can't resist

We go together like fire and water  
Girl we're on hot and cold  
This love could kill us,  
But I can't let you, can't let you go  
Why even try to fight it  
Nobody's leavin' so  
Let's let it burn until it all goes up in smoke

We should've never closed our eyes  
Should've stopped to realize  
This would never work out right,  
Just look at us baby

Oh, now it's way too late  
Cause love is standing in the way

We go together like fire and water  
Girl we're on hot and cold  
This love could kill us,  
But I can't let you, can't let you go  
Why even try to fight it  
Nobody's leavin' so  
Let's let it burn until it all goes up in smoke  
Let it burn baby

We go together like fire and water  
Girl we're on hot and cold  
This love could kill us,  
But I can't let you, can't let you go

Why even try to fight it  
Nobody's leavin' so  
Let's let it burn until it all goes up in  
All goes up in smoke
