My baby loves me when I'm stoned  
As long as I find my way home  
No my baby she don't care  
About the songs I sing or the clothes I wear  
Loves a late night call on the telephone  
My baby loves me when I'm stoned

She makes me see the picture  
She makes me see red.  
She puts me on a pedestal  
Then messes with my head  
She don't want me in and office  
Or in a three piece suit  
She'd rather see me in dirty jeans and boots

Chorus

Every time that we're together she cuts all the slack.  
Cause she knows I ain't myself until I knock a couple  
back.  
It'll lead you life to ruin, take you to an early grave  
At least that's what those people always say

Chorus

Ain't never gonna leave that girl alone  
My baby loves me when I'm stoned
