So Fast

The flowers are wrinkled and she,  
She still don't understand  
The measures a man can go,  
Oh, bless her soul. \*

The tears are no longer falling  
But what happens when the rivers dries?  
It leaves you dying inside  
But it's not her fault, but she can't go on  
Thinking there's something she could have done,  
That she could have done  
[So Fast Lyrics On ]  
And the song is slowly dying, but you went so fast  
Why were we, why were we so unkind?  
And now there's no words to say that will ever change  
The way you took your life... with the slip of a finger.

And he looks in the mirror and he, he's filled with hate  
The enemy so many times escaped  
But it's not his fault but he  
No he can't go on thinking  
Things could have been different  
if he'd have held his tongue

And the song is slowly dying but you went so fast  
Why were we, why were we so unkind?  
And now there's no words to say that will ever change  
the way you went  
The way you left this world

And the song is slowly dying but you went so fast,  
Why were we so unkind?  
And now there's no words to say that will ever change  
The way you took your life with the slip of a finger
