Even though you've never loved me, you're the Only One
Even though you've really hurt me, you're the Only One
How could i ever get over, a love i never knew
i guess i'm still just a fool
you're the Only One, the only one

i don't know how you make me feel this way
Never knew my heart could feel, such pain
Why won't you, just gimme a chance to show i love you
Ever time we try to talk
You just walk out the door

But everytime i try to let you go, my heart holds onto you
No matter what i say or what i do
I feel like such a fool
Even when you lie right to my face
I wish that they were all true
I guess you just really wanna leave
So i'll let you go

How can i get you out my head, you're the Only One
You will always be my baby, you're the Only One
Even though you've never loved me, you are still my queen
I'm just a fool who's in love
you're the Only One, the only one

I haven't felt your touch in so long
And the image of your smile, is long gone
Did all the memories that we had shared
Mean nothing to you?
You lead me on You broke my heart
So why can't i get over you

Oh everytime i try to let you go my heart holds onto you
No matter what i say or what i do
I feel like such a fool
Even when you lie right to my face
I wish that they were all true
I guess you were never mine

So why do i care?

Even though you've never loved me, you're the Only One
Even though you've really hurt me, you're the Only One
How could i ever get over, a love i never knew
I guess i'm still just a fool
you're the Only One, the only one

How can i get you out my head, you're the Only One
You will always be my baby, you're the Only One
Even though you've never loved me, you are still my queen
I'm just a fool who's in love
you're the Only One, the only one
