I was out, with my friends
Didn't have any kind of expectation
Is when I saw your pretty face
When you had slowly walked my way

I had paused, couldn't speak
But inside I could feel that my heart kept racing
I didn't know what else to do
But follow you

But you paid me no attention
Girl you got me second guessin
In my head, with my heart
Still I'm left with just a question

What if you and I had pleasant
Conversations while romancin
But I don't even know your name
Excuse me miss

Ooo, you got me
Curious, curious, curious

Babe, you got me
Curious, curious, curious
[x2]

Babe, you got me, you got me, you got me

We had spoke a little while
Got to know each other's very basic
We never got to deep enough
NoooOooo

The little time that we had
We had spent with each other didn't waste it
Oh girl you got me fiendin more oooo

But we had to leave each other
Cause our busy lives have called us
I just know, its not ok
I don't care about another

I just wanna get to know you
Can't believe that this is over
But I don't even know your name
Excuse me miss

Ooo, you got me
Curious, curious, curious

Babe, you got me
Curious, curious, curious
[x2]

Babe, you got me, you got me, you got me

Tell me how much time will passed
Before we cross each other's paths again
I wanna see you, wanna be with you
I wanna know

You've been staying on my mind
Girl it's you that I needa find
Oh but I don't even know your name

You got me
Curious, curious, curious

Babe, you got me
Curious, curious, curious
[x2]

You got me
