(Verse 1)

Been thinking about all the days you were  
Right by my side  
Been thinking about how you never  
Left me behind  
And all of the things that you said to  
Help me ease my mind  
And I don't know where I'd be  
Without you in my life

(Prechorus 1)

Now I just  
Wanna tell you how much  
I appreciate your love

(Chorus)

So I'll be there when you call  
Pick you up when you fall  
And if you ever get lonely  
I'll be there in a heartbeat

This song is for you  
For everything we've been through  
It's been so long overdue  
I just wanna say  
Thank You

(Verse 2)

Been trav'ling this road for so long  
We're still going strong  
Cuz without you here I'd be nothing  
Nothing at all  
Even when times were bad you believed in me  
And now I'm standing tall  
And I just wanna thank you  
For sticking through it all

[Prechorus 2]

Now I just  
Wanna show you how much  
I appreciate your love

[Chorus]

So I'll be there when you call  
Pick you up when you fall  
And if you ever get lonely  
I'll be there in a heartbeat

I know it's not easy  
but you were there from the start

I'll take the kindness you've shown me  
share the love, and the strength  
(Pay it forward) Be all we can be

[Chorus]

So I'll be there when you call  
Pick you up when you fall  
And if you ever get lonely  
I'll be there in a heartbeat
