The way you picture me
The crowd surrounded me
I feel alone so let don't matter no no no no
Now 'cause seems on tv
Don't know I pay for...
That I've got everything I don't know know know

I'm, I feel happy don't call me crazy
Some say I got it all baby
Uh, my heart is in danger need someone to save me
So I'm searching for you love wherever I go

Wherever I go, I'm searching for the soul
The one who holds forget in my heart
So irresponsible to search how to know
At the one who holds lookin to my heart

The burning into me, I trend this fancy things
The cost of diamond rings, it don't matter no no no
Missin this to my dream, I feel so...
It just seems out of reach forget so don't go

Uh, I feel happy don't call me crazy
Some say I got it all baby
Uh, my heart is in danger need someone to save me
So I'm searching for you love wherever I go
