I'm reading you baby it's all on your face  
It says you wanna be crazy come back to my place  
Love your jeans don't mind if u lose them  
Love your heels don't mind if u use them  
Don't be scared I know what I'm doing  
I know we just met  
Lose control

Help me get my head right babe babe babe  
Help me get my head right just for tonight  
Everybody everybody, everybody everybody,  
everybody everybody  
Everybody gets a little psycho  
Psycho

I'm the voice in your head girl I wont stay you wrong

I can make u a star just sing in my microphone  
Love your lipstick I wanna sniff it  
Love your body I wanna feel it  
It's your life so baby just live it  
I know we just met  
Lose control

Help me get my head right babe babe babe  
Help me get my head right just for tonight  
Everybody everybody, everybody everybody,  
everybody everybody  
Everybody gets a little psycho  
Oh oh oh oewoohoho  
Psycho
