Woke up this morning  
Satisfied this morning  
You were laying by my side  
Yeah  
The cold air brings you closer  
With your head on my shoulder  
Heaven sent you through the night  
I, I know that heaven can wait  
I won't send you back today  
Please tell me you'll stay  
Stay cuz  
If you leave today  
The air I breathe you'll take  
Baby let's get away ay ay ay

She opened up my eyes to show me she can fly  
She kissed my lips and said I've never been so  
high(buh da da)  
She's got wings(buh da da)  
She's got wings(buh da da)  
She's got buh da da da da da

She woke up she was smiling  
Contagious I was smiling  
From the taste of our first kiss of the day  
I'm loving our time together  
But how can I make it better  
Trying to figure out the words to say  
I know that heaven can wait  
I won't send you back today  
Please tell me you'll stay  
Stay cuz  
If you leave today  
The air I breathe you'll take  
Baby let's get away

She opened up my eyes to show me she can fly  
She kissed my lips and said I've never been so  
high(buh da da)  
She's got wings(buh da da)

She's got wings(buh da da).  
She's got buh da da da da da  
Yeah

The three words that she whispered to me  
I Said I love you too we were meant to be  
Then I closed my eyes, thank God for she  
Got the keys to my heart she controls to be  
Got this one question making me think  
How can she inspire this song to sing  
I'm the only one thinking 'bout buying a ring  
This girl's an angel she's got wings

She opened up my eyes to show me she can fly  
She kissed my lips and said I've never been so  
high(she's got wings)(buh da da)  
She's got wings(she got wings)(buh da da)  
She's got wings(she got wings)(buh da da)  
She's got  
Buh da da da da da

She's got wings(buh da da) (Hey! )  
She's got wings(buh da da)  
She's got  
Buh da da da da da  
She opened up my eyes to show me she can fly

She's got wings(She's got wings)(buh da da)  
She's got wings(She's got wings)(buh da da)  
She's got buh da da da da da(Ooh she's got 'em, Ooh  
she's got em)

She's got wings(OOH)(buh da da)  
She's got wings(She's got wings)(buh da da)  
She's got  
Buh da da da da da
