You went down a road  
No one should have to go.  
Life got real, real fast!  
You couldn't see your way out-  
Your world was under a cloud;  
All you could feel was helpless.  
You didn't think you could do it.  
Oh, but you got through it!

Chorus:

You kept faith when you  
Didn't have a prayer.  
Found hope when it wasn't even there.  
Up against the impossible, you  
Just wouldn't back down  
You kept fighting!  
That heavy cross you carried  
Ain't weighing you down any longer-  
Life is tough,  
BUT, love is stronger

You're finally facing the sun;  
Your brighter days have begun.  
Look at you now, just soaking it in!  
Your're smiling, you're laughing,  
You're happy, you're living!  
Every moment surrounded by  
All the beautiful reasons why:

(Repeat Chorus)
