I'm a mess today 'cause yesterday
I followed the desire of my foolish heart
Into the dark.
Feeling far away, need a couple days
To work real hard, to hit the mark, to get myself
back in good with you

What a waste!
What a losing game, cause

That's what the blood is for
It cleans the dirty man I am
Makes it possible stand before you Lord
That's what the blood is for.

What if I fall one more time,
or soon forget that you're the light
Where I am free? In perfect peace
and what if I can't get my act together?

That's what the blood is for
It cleans the dirty man I am
Makes it possible stand before you Lord
That's what the blood is for.

It's your blood that compels me,
Oh yeah, hold the power to my victory,
It's still speaking you love me.

That's what the blood is for
That's what the blood is for
It cleans the dirty man I am
Makes it possible stand before you Lord
That's what the blood is for.

That's what the blood is for
It cleans the dirty man I am
Makes it possible stand before you Lord
That's what the blood is for.
