Right in front of me  
Right out my dreams  
Feel my heart beat to the way you move  
The energy pouring into me  
Girl you shocked me with your electricity  
We can control the magic between us  
Tell me you feel the love all around us, yeah  
Girl let's make love to the rhythm  
Sit back and enjoy the ride

We're moving automatic, matic, ohh  
We're moving automatic, matic  
We're moving auto matic, ohh  
We're moving automatic, maticâ€!

Right in front of me  
Right out my dreams  
Feel my heart beat to the way you move  
The energy pouring into me  
Girl you shocked me with your electricity  
We can control the magic between us  
Tell me you feel the love all around us, yeah  
Girl let's make love to the rhythm  
Sit back and enjoy the ride

We're moving automatic, matic, ohh  
We're moving automatic, matic  
We're moving auto matic, ohh  
We're moving automatic, maticâ€!

Everybody's watching, let's put on a show  
Put your arms around me, right above the floor
