Though I walked through the shadow of death,  
I didn't know we though  
I've never been afraid of another man,  
Cause I can see through  
My heartbeat, his heartbeat,  
My only fear is that he wont kill me  
Cause if he don't, I grab my heat  
More hesitate I'm stoppin' this heartbeat

Though I walked through the shadow of death,  
I didn't know we though  
I've never been afraid of another man,  
Cause I can see through  
My heartbeat, his heartbeat,  
My only fear is that he wont kill me  
Cause if he don't, I grab my heat  
More hesitate I'm stoppin' this heartbeat
