Stay up tonight,
Can't close your eyes,
You may miss the greatest moment of your life.
Bodies in a twine.
And shadows outta sight,
Don't wanna let the night burn up, yea.

Making the sun a turn off,
Baby let's be nocturnal,
Keep each other awake forever.

I'm your only turn on,
Making this love infernal,
And never see the day.

I can be a vampire be mine.
Run from the daylight,
Together we stay right,
Stay away, awake all night.

Never say good night,
No good in goodbye,
No way, so you'll stay,
You'll lay awake,
And you can be my insomnia.

You give me a love,
I'll stay up forever,
I can be your insomnia,
I can give you a rush,
Stay sleepless together.

You can be my insomnia,
You give me a love,
I'll stay up forever.
I can be your insomnia,
My touches is like a drug
that keeps you away, way.

Our touch, combined,
So terrifying.
Scared to let the morning take this away,

Dawn we'll break it,
I know well make it,
Cause in the dark it's our safest haven.

How come the stars are shining?
How is it good rewinding?

Keep em outta sight.
I can be a vampire, be mine,
Run from the daylight,
Together we stay right,
Stay away, awake all night.

Never say good night,
No good in goodbye,
No way, so you'll stay,
You'll lay awake,
And you can be my insomnia.

You give me a love,
I'll stay up forever.
I can be your insomnia,
I can give you a rush,
Stay sleepless together.
You can be my insomnia.
You give me a love,
I'll stay up forever.
I can be your insomnia.
My touch is like a drug that keeps you away, way.

No way never turn back,
Hurt me like a heart attack,
Acting like a manic,
Be my love insomniac.

I'll bet they'll never know,
One touch I over dose,
So much I want some more,
So close.

I can be a vampire, be mine,
Run from the daylight.
Together we stay right,
Stay away, away from night.

Never say good night,
No good in goodbye.
No way, so you'll stay,
You'll lay awake,
And you can be my insomnia.

You give me a love,
I'll stay up forever.
I can be your insomnia,
I can give you a rush,
Stay sleepless together.
You can be my insomnia.
