

Jason DeRulo "We Own The Night"

Visit "[We Own The Night](#)" on MotoLyrics.com

'Cause we own the night, night-ight-ight
We own the night, night-ight-ight
We own the night, night-ight-ight
We own the night, night-ight-ight
We own the night

Excuse me I dont mean to bother
But I noticed you from a far
And shawty I said wait
I know you dont know me
But tonight that could change
Gotta be where you are, are babe

Girl together well be losing track of time
Baby aint no need to rush we got all night
Seeing sparks up in this club
By the time the sun comes up
You gon swear youre in love

Just meet me on the floor the time is now
Youre looking so right, under these lights
And girl if you get lost ignore the crowd
The feeling can go go as long as you like
'Cause we own the night, night-ight-ight
We own the night, night-ight-ight
We own the night, night-ight-ight
We own the night, night-ight-ight
We own the night

Can you imagine the places we could go
Baby Ill lead the way
Treat you like a star, lights, camera, action
And we can take it further whenever you say
Just say the word

Girl together well be losing track of time
Baby aint no need to rush we got all night

Seeing sparks up in this club
By the time the sun comes up
You gon swear that youre in love

Just meet me on the floor the time is now
You're looking so right, under these lights
And girl if you get lost ignore the crowd
The feeling can go go as long as you like
'Cause we own the night, night-ight-ight
We own the night, night-ight-ight
We own the night, night-ight-ight
We own the night, night-ight-ight
We own the night

Babe won't stop won't beat the clock
We can rock as long as we wanna, oh
From dusk till dawn the beat comes on
We keep it going as long as we wanna, oh oh

Just meet me on the floor the time is now
You're looking so right, under these lights
And girl if you get lost ignore the crowd
The feeling can go go as long as you like
'Cause we own the night, night-ight-ight
We own the night, night-ight-ight
We own the night, night-ight-ight
We own the night, night-ight-ight
We own the night
We own the night, night-ight-ight
We own the night, night-ight-ight
We own the night, night-ight-ight
We own the night, night-ight-ight
We own the night
