When I hear that night wind moan
When I hear that night wind moan
When I hear that night wind moan they're gonna roll
away this stone
When I hear that night wind moan

When I hear them call my name
When I hear them call my name
When I hear them call my name I know my soul will
soon be saved
When I hear them call my name

Chorus:

Oh my lord, oh my lord
I can't take back what came before
I get down on my knees and pray
I bow my head it's judgment day

When that crowd shall gather round
When that crowd shall gather round
When that crowd shall gather round will they make a
mournful sound
When that crowd shall gather round

Lay me down upon this bed
Lay me down upon this bed
Lay me down upon this bed and let me rest my weary
head
Lay me down upon this bed

(Chorus)
