"Watering Hole"

Wasting my time still trying
Wasting my years on youth
Wasting my daydreams dying
Waiting on some kind of proof

Chorus:

Take me back to the watering hole
Take me back to the watering hole
Where the rivers run deep and the waters are cold
Take me back to the watering hole

I passed up truth for chances
I passed by rolling stones
I passed by demons with red eye glances
Out past where the wind still moans

(Chorus)

I think I see a light that's shining
I think I see it call my name
I think this time I'll try and remember
To follow it back from wherever it came
Follow it back from wherever it came
