I'm gonna miss you  
While I'm sleeping  
Miss you when I'm awake  
Miss you when I'm dreaming  
And I'll make it over you  
When the sea stops being blue  
Which won't be soon  
Better luck next time  
We gave it a good try  
I guess we were doomed  
I'll try again but it won't be soon - next time  
Better luck next time  
I'm gonna miss you when I'm laughing  
Miss you when I weep  
Miss you while I'm breathing  
And I'll make it over you  
When the sun burns down the moon  
Which won't be soon  
Better luck next time  
We gave it a good try  
There's more out there or so they swear

I'll try again but see if I care

The next time

Better luck next time

We gave it a good try

You left me high

You left me dry

I'll try again before I die...

But next time

Better luck next time

And it won't be soon

Won't be soon

Better luck next time
