Sometimes you get a little lost get a little tossed  
Get a little off course, on this crazy spinning rock  
Sometimes your lose the race fall on your face  
Can't find your place well that's alright  
Your gonna get it back again

Chorus

Cause we're around for reason  
You make your mark do your best  
Till it all makes perfect sense  
We're around for a reason  
No we can't always see it  
But the good lord only keeps you around for a reason

Who's gonna throw that ball drive him to the mall  
Catch them when they fall, hey that's my job  
And who's gonna dry her tears listen to her fears  
And stand by her through the years, that's me  
Cause I know looking in their eyes

Chorus

I'm around for reason  
You make your mark do your best  
Till it all makes perfect sense  
We're around for a reason  
No we can't always see it  
But the good lord only keeps you around for a reason

You gotta make the most of this life  
Cause we only get so many times  
Around

No we can't always see it  
But the good lord only keeps you around for a reason

Chorus
